Super Strength Column Made In Germany

SOLID

NON DEFORMABLE

Ours special profiles

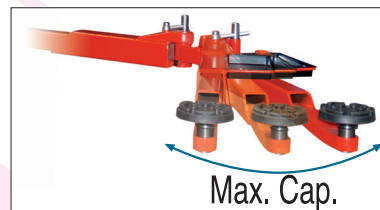

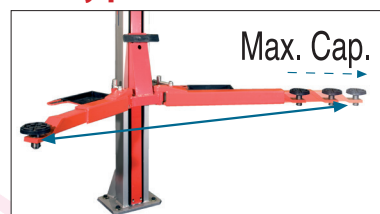

*SlenderTec*TM
Super Strength Column Made In Germany

allows us to manufacture extremely resistant and less bulky posts.

Maximum load APPROVED

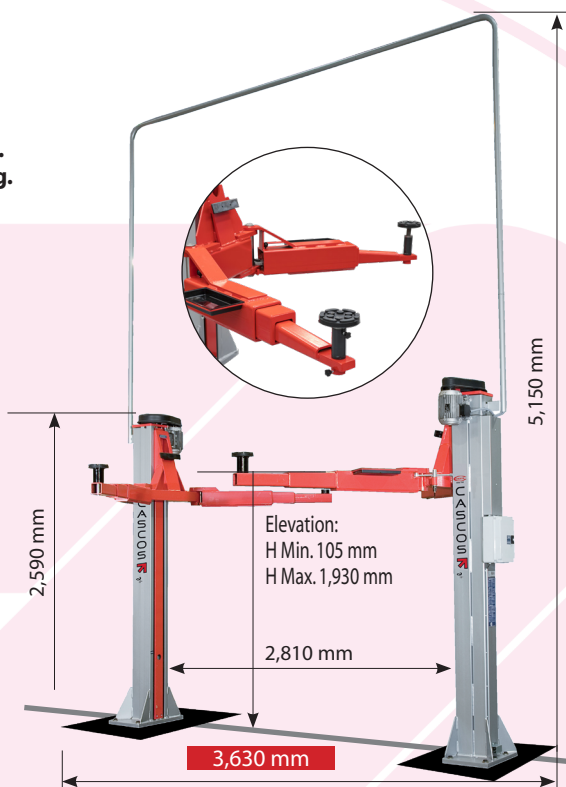

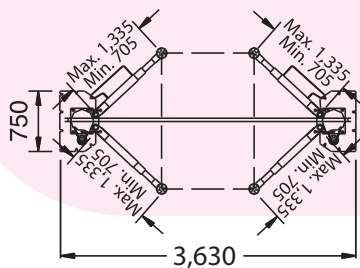

In any position!

NEW MODEL + FEATURES

- Minimum height only 105 mm.
- Larger lifting capacity 5,500 kg.
- More versatility:
SUVs , 4x4, vans ...

4 triple arms

CASCOS lifts, against the others from our main competitors, can lift the maximum load at:

- Any opening angle..
- Arm extension..

- **Greater workspace** between post (2,810).
- More workshop space: **minor outer space** (3,630).

Reversibility

Symmetric lifting arms means **vehicles can be driven on in either direction**, making it much more versatile.

Major versatility

CASCOS

& Approved Standards

PLC Automat the most reliable levelling system, Electronic Synchronization through automat and inductive detectors.

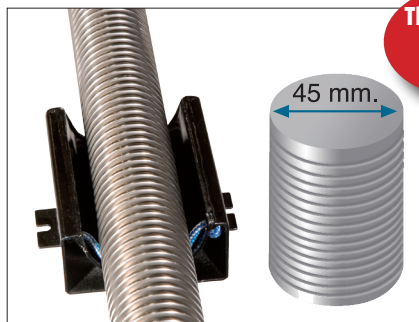

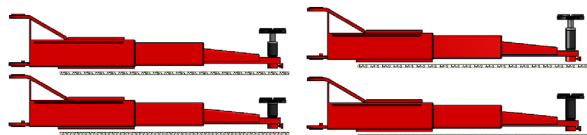

Advantages:

- **Not expose to wear** neither to a forced loading position or to a possible **unevenness of the floor** such as Mechanic Cable levelling.
- PLC Automat unlike the electronic circuit boards is programmable and **less sensitive to voltage changes or short circuit**.
- **Easy check** of lift operation through our led's system.

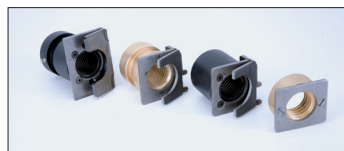

High quality guided steel bearings offer **longer durability** than nylon guides.

Serial pads kit 60 y 100 mm.

The biggest on the market

The biggest diameter spindle on the market and high quality nuts offer:

- **Less wear.**
- **Longer lasting life.**

Exclusive details:

- **Tool trays.**
- **Rubber protections** on post for safe door opening.

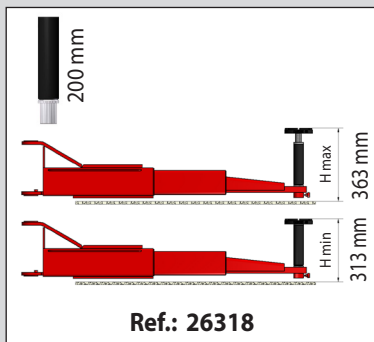

Great space between posts, perfect door opening to enter/exit .

CASCOS recommends the use of fixing bolts with ETA code for their lifts, which we supply on demand
